

YUVRAJ SAIN

Python Backend Developer

Alwar, Rajasthan | +91 9636336877 | mryuvrajsain@gmail.com | linkedin.com/in/yuvraj-sain | github.com/Mryuvrajsain

PROFESSIONAL SUMMARY

Python Backend Developer with hands-on experience designing and shipping REST APIs using Django REST Framework and FastAPI. Currently building a production-bound CRM platform end to end — delivering 50+ API endpoints, JWT-based authentication, and role-based access control while improving response performance by up to 80%. Brings a strong analytical foundation from prior roles in data reporting and process improvement, and adapts quickly to new tools and technologies.

TECHNICAL SKILLS

Languages: Python, JavaScript, HTML, CSS

Backend Frameworks: Django, Django REST Framework (DRF), FastAPI

Authentication & Security: JWT Authentication, Token-Based Authentication

Databases: PostgreSQL, SQLite

Tools & Version Control: Git, GitHub, Docker, Postman, Thunder Client

Additional: Prompt Engineering, Loop Engineering, Generative AI Fundamentals

PROJECTS

AI Browser — *Django REST Framework*

- Designed and built a role-based SEO management platform supporting Admins, Employees, and Users, with granular permission control governing access to projects, reports, and analytics.
- Engineered an AI-powered browser application with 50+ REST API integrations and full test coverage of core functionality.
- Authored a comprehensive test suite covering core functionality to validate reliability before release.
- Implemented JWT-based authentication and role-based access control (RBAC) to secure multi-tenant access across admin, employee, and client-facing views.

EXPERIENCE

Python Developer Intern — AIGETAI, Remote | Jan 2026 – Present

- Developed and maintained 50+ REST API endpoints for a CRM platform using Django REST Framework and FastAPI, powering core customer management workflows.
- Implemented JWT-based authentication and role-based user permissions, securing API access across the platform.
- Improved API response performance by up to 80% through targeted query and code-level optimization.
- Built 50+ automated test cases to validate business logic and support reliable releases.
- Architected a modular backend structure to support long-term maintainability and scalability of core business logic.
- Collaborated with cross-functional teams in recurring planning meetings to align on requirements and priorities.

Prior Experience

EDP Executive — Jyoti Automobiles, Rajasthan | 2023 – 2025

- Analyzed and reported cross-departmental business data to support management decision-making.

Quality Inspector — Eicher Engines, Rajasthan | 2022 – 2023

- Maintained quality and performance reporting to ensure accurate, timely data for production oversight.

Production Analyst — Hitachi Astemo, Rajasthan | 2021 – 2022

- Monitored production data and collaborated with cross-functional teams to identify process improvements.

Vehicle Validation Trainee — CIT Hero MotoCorp, Rajasthan | 2017 – 2018

- Supported vehicle testing and validation, documenting and analyzing test results.

EDUCATION

B.Tech, Computer Science Engineering — Bikaner Technical University (BTU) | 2022 – 2025

Diploma in Engineering — Board of Technical Education, Rajasthan (BTER) | 2018 – 2020

ITI — National Council For Vocational Training (NCVT) | 2015 – 2017
